Number your film in the order you want it shown in the video. In most cases, we will splice all 50 foot reels onto larger 400 foot reels for processing. All film will be returned after processing.

If needed, we clean and lubricate the film.

The process generally takes 10-14 days. If you need your project back sooner, contact us to and we can work within your time constraints.

A 20% discount is offered for jobs with more than 4,000 feet.

Once the transfer is finished we will contact you for payment information.
